

HIGH Q GREENHOUSES INFORMATION SHEET

AGERATUM Blue Fields

The Ageratum series feature colors that beautifully complement each other.

Vigorous compact, mounded plants, spread up to 30cm (12 inches) across, smothered with unusual, light to medium blue flowers. Outstanding garden performance in borders or containers, flowering all summer.

-
- Flowering Time** ➤ Summer
- Habit** ➤ Very uniform, compact and floriferous
- Requirements**
- **Light** – Part sun
 - **Soil** – Well drained with pH 5.5 – 6.2
 - **Water** – Prefers to dry out between watering – do not allow severe wilting
 - **Fertilizer** – With low levels, 100-150 ppm N from a balanced fertilizer – light feeders, over fertilization will result in lush growth and poor flower production
 - **Temperature** – 14-17°C Night, 20-22°C Day
 - **Growth Regulators** – Use B-Nine lightly and only as needed
 - **Pests & Diseases** – Whitefly, Thrips, Aphids
- Application**
- **Grower:** Packs, 4" pots, color bowls and planters
 - **Consumer:** Color bowls, mixed containers or planters
In the garden perfect for creating patterns and lines in formal gardens
