

HIGH Q GREENHOUSES INFORMATION SHEET

BEGONIA Dragon Wing

Red

Pink

Blazing blooms are spectacular in hanging baskets and large containers as well as gardens. These award winning plants are named for their eye-catching angel-wing leaves. Very gardener-friendly as they are heat tolerant and perform well in cool conditions.

-
- Flowering Time** ➤ All summer
- Habit** ➤ Dense habit with large pendulous blooms
- Requirements**
- **Light** – Prefers morning light (can handle some sun)
 - **Soil** – Well drained
 - **Water** – Avoid water stress – it delays flowering, reduces branching and pales foliage
 - **Fertilizer** – Boost Nitrogen fertilizer if plant shows signs of fading
 - **Temperature** – Heat tolerant, min nights 18°C
 - **Growth Rate** – 7 weeks to flowering after transplanting from 512s
 - **Regulators** – For a compact plant, 2ppm Bonzi or 2500 ppm B9
 - **Pests & Diseases** – Whitefly, powdery mildew, downey mildew
 - **Pinching** – One pinch after 14 -21 days
- Application**
- **Grower:** 4” – 6” pots; 1 gallon pots; baskets
 - **Consumer:** Patio pots, hanging baskets, planters, garden beds
