

# HIGH Q GREENHOUSES INFORMATION SHEET

## Geranium First Yellow

A truly amazing breakthrough in plant breeding - the world's first YELLOW Geranium.

Perfect for pots on the patio, the multi-branching stems of this zonal geranium will ensure an abundance of medium-sized blooms. The soft lemon shades of the geranium contrast perfectly with other garden flowers and are an attractive contrast to the dark green foliage.

Make all your friends and costumers say WOW!!!

---
